

Welcome to Second Time Office Equipment

There is a lot of life left in those used electronics. We accept ALL kinds of electronics. We evaluate, sort, and salvage anything that has useful life left in it, and recycle anything that is beyond use. We operate on a ZERO WASTE policy, meaning NOTHING ends up in the landfill.

We've managed to get our hands on all kinds of good quality items that are frankly, just not ready for the scrap heap. As such, there is all kinds of useful life left in this stuff. If you have need of a decent laser printer, a reasonably priced desktop or laptop computer, or even some obscure high tech needs, we may just have it on stock.

Then again, we may have some unique and whimsical products made from materials that we have found new uses and applications for.

We hope you have fun nosing around our online warehouse store. Remember to register for our electronic newsletter and to get access to the online store!

Notreadyforthescrapheap.com features:

- Desktops
- Laptops
- Servers
- Networking devices
- Spare parts
